PROFESSIONAL SUMMARY

Full Stack and Mobile Developer specializing in React.js, Next.js, React Native, and Node.js, with hands-on experience building and shipping production web and cross-platform mobile applications end-to-end — from PostgreSQL schema design and RESTful API development to responsive UI and cloud deployment on Vercel and Railway. B.Tech (IT) graduate (2025) with an AI/ML minor and applied machine-learning projects in Python. Comfortable across the stack in fast-moving, Agile teams. Available to join immediately.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Go, PHP, SQL, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Redux / Context API, Responsive Design

Backend: Node.js, Express.js, Go (Gin), RESTful APIs, JWT / OAuth, WebSockets

Mobile: React Native, Expo, EAS Build, Cross-Platform Development

Databases: PostgreSQL, MongoDB, Firebase

AI / ML & Data: scikit-learn, Pandas, NumPy, NLP, Advanced Excel

Cloud / DevOps & Tools: Docker, Vercel, Railway, CI/CD, Git / GitHub, Postman, WordPress, Agile / Scrum

EXPERIENCE

Full Stack & Mobile Developer (Freelance) — Aggarwal Publicity & Marketing Pvt. Ltd. *2025 – Present*

- Built and deployed the company's corporate website <https://aggarwalpublicity.com/> using PHP and WordPress — owning frontend, backend, hosting, and a PHPMailer SMTP contact form, with a focus on accessibility and mobile optimization.
- Building an internal logistics and ride-hailing system — Go/Gin backend, PostgreSQL, multiple Next.js admin panels, and React Native (Expo) apps — supporting business expansion.
- Developed RESTful APIs and real-time features (booking, live tracking, in-app support chat), integrating Google Maps and an AI-driven auto-reply assistant.
- Translated stakeholder requirements into scalable technical architecture coordinated across multiple codebases.

Front-End / Full-Stack Developer — Zobox Protech Limited

Dec 2024 – May 2025

- Built responsive, cross-device web modules in Next.js and implemented secure JWT authentication and real-time update features, improving performance and scalability.
- Used Advanced Excel for data analysis and market prediction, delivering insights that informed product decisions.

Machine Learning Trainee — KVON Technologies

May 2025 – Feb 2026

- Applied supervised and unsupervised learning, model evaluation, and Python (scikit-learn, NumPy, Pandas) to data-driven automation problems.

PROJECTS

gogoo — Ride-Hailing & Logistics Platform (*Go, PostgreSQL, Next.js, React Native / Expo*)

- Internal end-to-end platform: Go/Gin backend, PostgreSQL, five Next.js admin panels, and two Expo apps. Built booking, live tracking, payments, real-time AI-assisted support chat, and role-specific panels. Deployed on Railway, Dockerized locally.

Hamara Book Bank — NGO Management Platform (*MERN, MongoDB Atlas*)

- Full MERN platform with 50+ REST API endpoints, an admin dashboard, and subscription / donation features supporting book-distribution operations.

Medical X-Ray Classifier (*Python, PyTorch / DenseNet-121*)

- Multi-class chest X-ray classifier (~18K images, ~90% accuracy) with Grad-CAM explainability and a Flask/React inference demo.

RAG PDF Question-Answering System (*Python, FAISS, Sentence-Transformers*)

- Offline retrieval-augmented Q&A over PDFs using FAISS semantic search and Hugging Face transformers.

EDUCATION

- B.Tech, Information Technology** — Dr. Akhilesh Das Gupta Institute (GGSIU), 2021–2025 | 91% (Minor: AI/ML)

- Class XII (CBSE) — 87% (2021) | Class X (CBSE) — 86.95% (2019) | Diploma in French, Delhi University — in progress (2026)

ACHIEVEMENTS & LEADERSHIP

- IBM Certified — Data Science; cleared Smart India Hackathon (SIH) Level 2; two-time runner-up, IEEE GGSIPU Ideathon.
- Program Manager, Hamara Book Bank NGO (2018–Present) — led community outreach and book-distribution initiatives.
- Languages:** English (fluent), Hindi (native), French (intermediate, pursuing diploma).
